

TommySoftware® Tek Illustrator Shareware Version 3.11

Dear Tek Illustrator user,

We are pleased that you have decided to take a look at TommySoftware® Tek Illustrator. As you will see, it is well worthwhile.

The TommySoftware® Tek Illustrator is a full-featured technical illustration and graphics system for Microsoft Windows Version 3.1. It offers, along with many construction possibilities, a particularly user-friendly graphical user interface which complies with all Windows standards.

Annual Art Contest

TommySoftware® organizes an annual art contest for all registered users of the TommySoftware® Tek Illustrator. In order to participate, submit your best illustrations and graphics on a floppy disk along with a completed contest entry form (included in the registered version only) to TommySoftware®.

The illustrations and graphics must be created with the TommySoftware® Tek Illustrator and must be submitted as genuine T3G files. If special fonts have been used in a file, please submit that file in two versions with one version having all texts resolved (see command **Dimension > Text > Resolve**).

The winners will be chosen once a year and announced on May 1st. To be considered, entries must be received until March 31st of the current contest year. Awards will be paid cash, they will be: first place US\$ 200, second place US\$ 100, third place US\$ 50, fourth and fifth place US\$ 20.

The decisions of the judges are final. All entry materials (disks, paper, etc.) become the property of TommySoftware®. Of course you retain the copyright to your art work. Only registered users of the TommySoftware® Tek Illustrator may participate!

System Requirements

The TommySoftware® Tek Illustrator requires at least the following:

- Intel 80386 Processor
- Microsoft Windows Version 3.1 or higher
- 4 MB RAM available to Windows (not including swap file)
- Graphics card and monitor capable of displaying 640×480 pixels and 16 colors or gray levels.
- Mouse or other pointing device.

For working with complex drawings and/or imported bitmap graphics, we recommend the following:

- Intel 80486DX Processor
- Microsoft Windows Version 3.1 in Enhanced Mode
- 8-12 MB RAM available to Windows (plus a permanent swap file of about the same size)
- Accelerated graphics card and monitor capable of displaying 1024×768 pixels and 256 colors.
