

Remember to use your STOP, THINK, PLAN, DO questions from Unit 1 to ask yourself the right questions as you go along.

STOP

- Are you going to be taking notes on a lecture or on a reading assignment?

THINK

- What unit are we studying now?
- What topic is the reading or lecture going to cover?
- What do I already know about this topic?

PLAN

- What is going to be the best note-taking format to use?
- What materials do I need? (book, highlighter, etc.)

DO

- Take notes.
- Think, is this the best note-taking technique to use or do I need to try another way?
