# Modified Diploma Contract

If a student is eligible for a modified diploma, it is important to consider the following details:

- Upon graduation, the student's transcripts will reflect that a Modified Diploma was granted.
- The student must meet the participation and attendance requirements as outlined by the district and classroom guidelines.
- The student will earn at least 24 credits to be awarded a Modified Diploma.
- **Earning a Modified Diploma will limit some post-secondary options, such as entry to private/state colleges or universities, and military branches.**
- Returning to a standard DHS Diploma will require additional course work including the possibility of retaking some classes.

The student or parent may, at any time, petition for a return to a standard diploma program. We understand that such a change may require that the student attend high school beyond four years to earn credit for a standard diploma. A student can attend high school through his/her 21<sup>st</sup> birthday or until he/she obtains a standard high school diploma, whichever comes first.

**We understand the Modified Diploma may not prepare the student for a four year college or university. We have investigated the limitations mentioned above and understand the consequences. Furthermore, we wish to pursue the Modified (mod) diploma as outlined in OAR581-022-1134.**
