

18th World Knowledge Sagas Forgathering
Pittsburgh, Pennswood

The following upshot was reached at the Pittthing Business Moot, Sunday, September 4, 1960:

(1) Inwriting Guild: The inwriting gild for outlanders (meaning folk not living in North Vinland) shall be one daler, but such outlanders shall betale a further two dalers upon coming to the Forgathering. The inwriting gild for North Vinlanders shall be $\text{D}2.00$, but a further $\text{D}1.00$ shall be betaled upon their coming to the Forgathering.

(2) Indraft of "Hugin" Meeds: The indraft of the yearly "Hugin" meeds shall be oneliked as heeds the firework ship (but not needfully the footdeal), on the groundsel of the indraft by Ben Jason, inled at the 1955 Forgathering. Thane Jason is thanked for his work in forthbringing this indraft.

(3) Meed Kinds: The Headman of the Pittthing is bidden to name a sair outchosen to bethink forthlayings for the oneliking of the "Hugin" Meed kinds. The outchosen will gaintell at the next yearly Forgathering.

(LOOK WELL: The dealship of this outchosen will be forthsaid later, after all dealmen have ontaken their namings.)

(4) Polling for Meeds: The workly polling for morrowish "Hugin" meeds, but not outnamings for the meeds, shall be inheld to betaled dealmen of the World Knowledge Sagas Forgathering at which the meeds will be made.

(LOOK WELL: This forsetting is binding on the 1961 Forgathering. It was eyesightly the hencelook of the foresetting that "beted dealmen" be bethought those who have betaled the $\text{D}2.00$ waybefore inwriting gild -- $\text{D}1.00$ in the falling of overseas dealmen. Otherwise the polling could not find stead save at the Forgathering itself, and it would be unmightly for the meeds to be readied and incut in time for forth-giving.)

(5) Inothering in Forgathering Times: A foresetting to name a sair outchosen to forthlay choosy times for the yearly Forgathering, other than the Work Day weekend, was boarded until the 1961 Business Moot.

(6) Mail Polling for Forgathering Stead: A foreputting to chose the stead of the World Knowledge Sagas Forgathering by written choosekegel, in the same way as the "Hugin" meeds but with the deadline for incatching of pollings at midnight on the first day of the Forgathering, was boarded without a foresetting.

(7) Forgathering Stead: Seattle was onemannishly chosen to be the stead of the 1961 World Knowledge Sagas Forgathering.
