

Private Registration now available for Partners

Provide Customers Increased Privacy on the Internet

Become a reseller for Network Solutions® Private Registration and provide an important service to your customers while earning additional revenue and attracting new customers. Network Solutions is offering this service to Partners at the standard wholesale price of \$7.00.*

Private Registration Keeps Personal Information Private

Network Solutions Private Registration addresses customer' growing concerns regarding spam, identity theft, as well as unsolicited telemarketing and direct marketing. Our service creates an alternate phone number, e-mail and postal address, which appears in the customer's public WHOIS listing and keeps the registrants contact information from the public.

 Record created on 14-Dec-2003.
 Database last updated on 13-Apr-2004 16:26:23 EDT.

Domain servers in listed order:
 NS1.WORLDDNIC.COM 216.168.225.131
 NS2.WORLDDNIC.COM 216.168.225.132

This listing is a Network Solutions Private Registration. Mail correspondence to this address must be sent via USPS Express Mail™ or USPS Certified Mail®; all other mail will not be processed. Be sure to include the registrant's domain name in the address.

Alternate information includes:

- Email: An alphanumeric e-mail alias is randomly created every 10 days. Network Solutions filters out any spam and forwards legitimate e-mail to the customer.
- Postal Address: A Network Solutions P.O. Box is listed as an alternate to the customer's address so that mail can be sent to the customer c/o Network Solutions. Network Solutions opens all USPS Express and Certified Mail, and e-mails a scanned image of the document to the customer for free. Third Class mail is shredded.
- Telephone Number: We provide you with a Network Solutions Private Registration telephone number listing in WHOIS, which serves as an answering and screening service for Private Registration customers. Callers are directed to contact the registrant through the e-mail and postal address listed in WHOIS.

*Does not include the price of the domain name registration

Best-In-Class Offering Enhances Your Service and Brand

Our Private Registration service is differentiated in the market. With Network Solutions Private Registration:

- The domain name remains registered in the customer's name unlike with competitor "proxy" services, where the service provider becomes the registrant.
- Network Solutions protects customers from spam and more by masking the customer's phone number, e-mail and postal address, while other services only mask the e-mail address.
- You manage domain names with Private Registration within the same account management tools, requiring only one Log-in ID and Password. You do not have to log-in to a separate account management tool to view and make domain name modifications to a domain name with Private Registration.

Adding Private Registration is Easy

Look for the Add Private Registration link under Order Services in the [Partner Portal](#) or update your XML-API code to offer Private Registration on your web site.
