

## ABOUT PLAYMAKER, INC.

### ABOUT KEYWARE

**PlayMaker Football™** is a commercial product that is available as **KEYWARE**. **KEYWARE** works this way: You can download the DEMO to get a feel for the game. When you are ready to purchase the full game, download the full game installer. The full game installer will boot up and ask you for your name. After you type in your name, the full game installer will give you a personal ID. When you are ready to order, just call our 800 number or e-mail the personal ID with your name, address and telephone number. The full version of **PlayMaker Football™** is \$20.00 U.S. There are several ways to pay: 1) call our toll-free order line 800/324-7774, 2) email or fax us your Visa/MasterCard information, 3) mail us a check or money order. After you place your order, we will provide you with a personal **KEYCODE** that will allow you to unlock and personalize the full version of **PlayMaker Football™**.

By offering **PlayMaker Football™** as **KEYWARE**, we are able to save production, packaging, and distribution costs. As you can see by our low price, we pass these savings on to you! The documentation for **PlayMaker Football™** is provided electronically in the DocMaker™ format. Otherwise, the **KEYWARE** version is identical to the retail version. The only difference is the money you save!

The **PlayMaker Football™** DEMO offers the fully functional game module from **PlayMaker Football™**. The Team Draft and Chalkboard Editor modules, however, are not activated in the DEMO, but are fully active in the full game.
