

Introducing the GopherGolf World Tour SIGN UP NOW!

If you have wanted a chance to prove yourself against other GopherGolfers, this is it! The World Tour is already forming and the first event is now in progress!

What the tour is:

The tour is a group of GopherGolfers who tour all of the on-line courses, and have match play tournaments at them. (This way, more people will win). After each event, season points are given, and a trophy is awarded to the winner (nifty PICT file) all on the way to crowning a grand champion much later on.

How to sign up:

E-mail me (Steelsoft7 or Steelsoft7@aol.com) and let me know that you are interested. I will contact you shortly thereafter about what to do next.

A VERY IMPORTANT NOTE: Let me know if you only have a 9" screen on your Mac.

How to Enter:

AFTER I HAVE CONTACTED YOU about playing, you will need to send in an entry for the first round of the tournament. This is done by taking a screen picture immediately after holing out. I compare running scores just like in match play to determine winners. To take a screen picture, press Cmd-Shift-3. Mail me the picture, and I'll let you know where you stand. Some players will move on to the next round, where they will play A NEW round (see rules, below) and send in a new picture. This goes on until we have a champion.

Do not enter until I have contacted you, please... I have to do brackets for tourneys and unknown entrants would cause havoc.

RULES ETC...

-Any rounds played at a nine inch course must be played in 9" mode. (Hold down "1" while GG loads.) This eliminates unfairness to those of us with an SE or Classic II.

-Each entry should be current. If the first round of a tournament ended February 16, and the deadline for second round entries was February 26, it would be unethical and unacceptable to send in an old picture of a great score you got before February 26.

-You can attempt the course only once in competition mode per round. That is your score. Send it in. Be honest. All practicing should be done in practice mode.

-Saving games in progress and replaying a hole over and over again to get a good score is unethical.

(NOTE: ALL OF THESE DEPEND ON HONESTY... SINCE THERE IS NO CASH PAYOUT, I THINK THAT'S ENOUGH)

-Editing the first 17 holes of a course is unethical also, although no one would know if you did... see honesty, above.

Questions, comments to Steelsoft7

THANKS, and Sign up soon!
