1. Welcome!

IBE Software would like to welcome you to 7capture. We, at IBE Software, believe that you will never see screen capturing the same way as before using 7capture.

2. System Requirements

Minimum configuration:
- Windows XP, Windows Vista or Windows 7
- 10MB of free disk space

Recommended Configuration:
- Windows XP, Windows Vista or Windows 7
- 256MB of RAM
- 20MB of free disk space
- 1024x768 screen resolution or higher

3. Installing 7capture

Just run the 7capture-setup.exe file and follow the instructions. You can install 7capture over a previously installed version. Don't forget to backup any existing project prior to updating.

4. First steps with 7capture

You can use the help file to help you get started with the environment.

5. Version Information
