

## Help

- LyriX Goodies - takes u 2 my area, ders also someother areas of mine der, like LyriX LinX wit 40 workin LinX d@ne1 has access 2, and ders LyriX FDO's which mostly r pretty restricted but der mostly all new.
- LyriX Board - takes u 2 my board, pretty simple, btw my board just moved 4 dis release =D
- Contact LyriX - Really need me but u can't find me and don't know my sn, but u don't want 2 post it on my board where every human will see it. Well just use dis feature. However if u ask me how 2 make a tool i won't respond. simple questions r OK usually and ne thing else should b fine.
- Tool Upd@e - OK, dis will get da upd@e of my tool (like i release em often) but neway if it doesn;t work check my board, cz da ftp sight its on would appear 2 b dead if d@ feature doesn't work.
- Mailbomb - its pretty obvious wh@ dis does. but neway... fill out da mail howeva u want 2 dan go2 ur prefs and turn off close mail afta sendin. Now just keep jamin da enta button. dis is all cz of Happy Hardcore, hope mattas get betta Happy.
- Make a FTP - dis has help on makin FTPs and can make u one.
- MM sub menu - ok ;m just sumin dis 1 up, it just does some mail features VERY quickly, incredibly useful 4 hells =D.
- Mail Sub menu - OK nethin d@ says KW : XXXX just takes u 2 da KW it states.
- Go2 ne Room - Takes u 2 ne type of room u want, it also doesn't close =D.
- Conference Rooms - dese r da conference rooms ne normal user can go2, pretty useful.
- Room Prefs - OK, dis is da sweetest thing in da Room sub menu, it lets u choose wh@ type of way u would like 2 enta MF. No close 4 da fastest kind around by me. Auto for pressin itself dis wz by me but not da idea, and its a room token so its fasta dan a KW token, if u see dis in otha tools every1 had my permission cz dis wz takin 4eva 2 make so why not let people have it. Re enter, it re-entas da room, no shit.
- MacFilez to MacFilez4 - takes u 2 da room st@ed.
- Quit - hmm
- Sign off - i wonder
- Old board - dis takes u 2 da desired classic board u input.
- New Board - dis takes u 2 da desired system board u input.
- Token - dis lets u send ne type of token u desire 2 da host.
- RecLib - very useful, it lets u input a RecLib, good way 2 uptain FDO's, and very good if u have a RecLib list.
- Display Form - Lets u display a FDO.
- Capture Form - Lets u capture a FDO.
- Utilities Palette - Very useful, has a lot of utilities stuffed in 1 FDO and is good if u use a lot of utilites round da same time, props 2 OJ.
- Random keyword - takes u 2 a random KW.
- Flashsession - shows ur current Flashsession Status, very useful 4 scriptas testin a mmer.
- Debug Window - very useful 4 a tool maka, it shows if nethin funky is happenin i guess u could say, hehe
- Network News - Shows wz goin on important on aol (yea, aol will tell its membas bout pron, hehe)
- Identity - if u don't know wh@ nethin in dis sub menu does ur gay, unless its refresh sn list. if ur on a guest acc or somethin it stores ur info in ur online database, meanin it outs ur sns in da aol app ur usin.
- Check bill - i wonder.
- Uninstall Tools - dis lets u take out ne online tools ur usin, hope its not mine, hehe (unless ur testin somethin).
- Respond - dis kiX ass, press command \ and u respond 2 a IM, very useful 4 lazy people like myself.
- IM Bomb - dis lets u fill out a IM and keep pressin enta and da IM window doesn't close and u don't even have 2 re-paste!
- Enable IMs - Turns ur IMs on.
- Disable IMs - Turns ur IMs off.
- Room Keys\MM Keys - Dependin wh@ ur menu prefs r set on dis can switch which command keys r bein used 4 wh@.
- Inf0 - displays a kool little dialog boX lettin u know LyriX spent hours on it =D.
- Read me - Wh@ ur lookin @ right now, thanX 4 readin it =D
- Ur Risk - who knows wh@ dis will do, use it @ ur own risk, just 1 thing, its kind of Moneys idea, hehe =D
- Upd@e - when ur upd@in ur art u can close it, but b 4warned, if u close it aol thinX u have da art so neXt time u go2 wh@eva KW u closed and ders no art, its cz u closed da upd@e window
