

Welcome To The Mystery Tool

I have designed this tool from the start with one goal in mind: To make Amercia Online fun again.

I am tired of seeing people modify someone else's work with ResEdit, doing things like changing the version resource to say "WrItEn By: BiL1y Da HaCkEr Do0d." It's about time that someone released something new! And so you now have in your possession what I consider to be the single most useful tool for Macintosh America Online.

I am also tired of people spreading viruses, lies, and hate around the seemy underbelly of AOL. What's the point? Seriously. I have nothing against anyone on AOL and you shouldn't either.

Enjoy!
