

Ummm, hi.

This tool was made so I could see just how hard tool making was. Although I knew a little before I started, I now know a lot more. Expect the next version (or my next tool, if I decide to move on) to be even better than this one.

**Anyway**, the following people deserve thanks:

MoNeY-I borrowed some of the enter room items from him, besides he makes great tools.

Lyrix-I borrowed the source code from a tool that he in turn borrowed from another tool.

Mystery Vortex-probably made the source code from the above-mentioned tool.

Freek-taught me how to make tools.

Also, if you know how to make tools, **DON'T TELL ANYONE WHO DOESN'T DESERVE TO KNOW! IT JUST DOESN'T WORK THAT WAY!** If you want to learn, try either: sucking up to someone who knows how to, or screwing around with resedit.

**-Tozer**

Oh yeah, I named this tool after an old ska band called The Specials.
