## Contact

Version v1.0b

---

No File Transfer Supported as of now, hopefully in the next release.

Color not supported as of now.

System Requirements: MacTCP, Any Mac 68k, sys 6.0.8 and beyond.

Version v1.0b1

---

Name Changed from EsP5->IRC to Mac->EsP5 (makes more since huh?)

Added "About" box in apple menu.

Figured out Macro's

Added Ctrl-T and Ctrl-E

Still working on that there color....

New Manual

Changed spinning Ball to something Cooler! =)

Version v1.0b3

---

Changed About Box.

Minor Coding Bug fixed.

Version v1.0b4

---

Menu's Changed.

Fixed CommTool Bug

Added this Cool Doc =)

Minor changed to increase speed.

-----

NOTE: This will only work if you have the proper Access Level on EsP5. If you connect and drop directly to the file area, You do NOT have proper access level to use. Please email: [espresso@bluemarble.net](mailto:espresso@bluemarble.net) to receive proper access, or to report any Bugs, Ideas, etc.
