

Ordering Information:

MacLifeInsurance is shareware—or try before you buy software—which means that it can be freely distributed. However, if you use MacLifeInsurance after the 30 day trial period, you must pay the small registration fee of only \$29.95 (less than \$8 per Control Panel!) When you register, I'll send you the registered version of MacLifeInsurance which eliminates the registration notices along with the Neat Stuff! Disk, chock full of great shareware programs from Insanely Great Software like the System 7 Pack! (4 Mice, MacUser Magazine), the System 7 Companion Pack!, INSTANT Area Code, Scrapbook Helper, and Town Meeting.

MacLifeInsurance will show a “nag” message each time you reboot regarding shareware registration. You can dismiss the dialog box by typing return or enter, or by clicking on the OK button. When you register, I'll send you the registered version which removes this annoying dialog box.

If you use MacLifeInsurance, please do send in your registration. I've put in a lot of hours and late nights into making MacLifeInsurance the product it is today. Without your support, shareware authors like myself simply cannot afford to continue to develop quality shareware products. MacLifeInsurance is a particularly good value—offering four control panels for only \$29.95—so please do take the time to register, whether it's via our toll-free 800#, fax, mail, or email.

Ordering is easy! We accept checks, money orders, Visa, and MasterCard. Purchase orders are also welcome. Our Federal Tax I.D. is 154-72-0178.

We're open 24 hours a day, 7 days a week. (Closed just isn't in our vocabulary!) And you can order any of our products by phone (both toll-FREE and international lines), fax, mail, or email. Plus, we ship within 24 hours.

If you are interested in a site license for your organization, please contact Adam Stein of Insanely Great Software for more information. (Contact information can be found under the Technical Support chapter.)

For more information on our other products, please see the appropriate chapters in this document.
