The purpose of a Scarlet box is to create a very bad connection, it can be used to crash a BBS or just make life miserable for those you seek to avenge.

materials: 2 alligator clips, 3 inch wire, or a resistor

(plain wire will create greatest amount of static)

(Resistor will decrease the amount of static in proportion to the resistor you are using)

Step (1): Find the phone box at your victim's house, and pop the cover off.

Step (2): Find the two prongs that the phone line you wish to box are connected to.

Step (3): Hook your alligator clips to your (wire/resistor).

Step (4): Find the lower middle prong and take off all wires connected to it, I think this disables the ground and call waiting and shit like that.

Step (5): Now take one of the alligator clips and attach it to the upper most prong, and take the other and attach it to the lower middle prong.

Step (6): Now put the cover back on the box and take off!!
