

This little area is for all you dudes that are using ResEdit.
It has nothing to do with the program in anyway, and is not even
worth reading really. I'd love to know what you are looking for.
The whole source code is available, and the program doesn't cost
a penny/cent.

What the fuck are you after?

hey, why not email me to say what you were looking for-

Well until next time, and, happy searching.

BTW all resources have been named for ya, to make you tour
with ResEdit that much easier.
