

BOX TYPE: ACRYLIC

PURPOSE: TO GET THREE-WAY-CALLING, CALL WAITING PROGRAMMABLE CALL FORWARDING, AND AN EASIER WAY OF EXTENDED BUD BOXING FOR FREE.

MATERIALS:

- 1) WIRE STRIPPERS
- 2) A COUPLE FEET OF WIRE
- 3) AT&T/BELL CAN
- 4) HEX WRENCH

IDEA: TO GET ALL OF THE ABOVE FEATURES BY STEALING THEM FROM THE FORTUNATE ONES ON YOUR STREET.

PROCEDURE:

STEP 1) FIND AT&T/BELL CAN THAT IS BEING USED TO SERVICE YOUR SURROUNDING AREA.

STEP 2) OPEN CAN WITH HEX WRENCH

STEP 3) FIND YOUR LINE AND ANOTHER PERSON'S LINE WHO HAS 3-WAY/ CALL (WAITING/FORWARDING). IF THE # OF ALL THE LINES ARE NOT LISTED IN THE BOX, YOU WILL HAVE TO USE YOUR LOCAL ANI TO FIND THEM.

STEP 4) ONCE YOU HAVE FOUND THE LINES THEN WIRE THE (BLACK & YELLOW) WIRES ON THE VICTIM'S LINE TO (BLACK & YELLOW) WIRES ON YOUR LINE. (BE SURE YOUR PHONE AT HOME USES ALL 4 WIRES AS SOME OF CHEAP PHONES DON'T.

STEP 5) THEN DISCONNECT THE VICTIM'S (Black & Yellow) WIRES, RESULTING IN THE LOSS OF THESE FEATURES TO THEIR LINE. (YOU MIGHT WANT TO LEAVE THESE WIRES CONNECTED, THIS MAY OR MAY NOT CAUSE PROBLEMS.

I HAVEN'T TRIED IT.)
