The purpose of a Scarlet box is to create a very bad conection, it can be used to crash a BBS or just make life miserable for those you seek to avenge.

Materials: 2 aligator clips, 3 inch wire, or a resister (plan wire will create greatest amount of static)

(Resister will decrease the amount of static in porportion to the resister you are useing)

Step (1): Find the phone box at your victims house, and pop the cover off.

Step (2): Find the two prongs that the phone line you wish to box are connected too.

Step (3): Hook your aligator clips to your (wire/resister).

Step (4): Find the lower middle prong and take off all wires connected to it, i think this disables the gound and call waiting and shit like that.

Step (5): Now take one of the aligator clips and attach it to the upper most prong, and take the other and attach it to the lower middle prong.

Step (6): Now put the cover back on the box and take off!!
