

SPIKE BOX

AN EFFECTIVE MODEM WEAPON, ESPECIALLY ON CROSSBAR PHONE SYSTEMS. (WILL STILL OPERATE ON ≈SS BUT YOU WILL KILL PHONE SERVICE TO YOUR PREFIX FOR A FEW HOURS, AND EVERYONE TALKING WILL BE CUT OFF ON YOUR PREFIX AND THE ONE YOU CALLED) WHAT IS THIS DEVICE? IT'S A 'ESLA COIL.

THE 'ESLA COIL WHEN PROPERLY USED WILL GENERATE LITRALLY THOUSANDS OR VOLTS AT VERY LOW AMPERAGE. (JUST THE RIGHT CURRENT TO BAKE SILICON CHIP COOKIES.)

SET UP

1. DISCONNECT ALL PHONES FROM YOUR LINE. DISCONNECT ANSWERING DEVICES AND ANY DATA-TRANSMISSION DEVICES.
2. RUN A PRELIMINARY TEST ON THE COIL AND DISCONNECT NEARBY GROUNDED OBJECTS. (LAMPS STEREOS, '≈'S ETC...)
3. CONNECT ONE PHONE THAT YOU SEE FIT TO SUBJECT. (IT USUALLY DOES NOT DESTROY PHONES, BUT I HAVE SEEN THEM MELT OFF WALLS.)
4. CONNECT IRON OR STEEL BALLS TO THE GREEN AND RED WIRES OF YOUR CONNECTED PHONE (THESE ARE THE LINE WIRES THAT GO INTO THE WALL.) L1 AND L2 TERMINALS OF YOUR PHONE.
5. PUT ON A PAIR OF THICK RUBBER GLOVES (≈ÿ'≈Ö≈Äÿ ...Ö-œ'¡Æ'!)
6. CHARGE COIL TO AT LEAST 10,000 VOLTS. AN IDEAL SETTING IS AROUND 18 TO 19 THOUSAND, BUT 10 WILL JUMP -ELLS LINE SURGE PROTECTORS.

7. HOLD METAL BALLS IN YOUR LEFT HAND. (MAKE SURE THEY DO TOUCH EACH OTHER) WHEN THE COIL IS FULLY CHARGED, CLIP THE STEEL BALL CONNECTED TO THE RED WIRE TO THE BASE OF THE TESLA COIL AND HOLD THE OTHER METAL BALL AS FAR AWAY FROM THE COIL AS YOU CAN.
8. DIAL THE OFFENDING MODEMS NUMBER.
9. WHEN CONNECTED, MOVE THE METAL OBJECT CONNECTED TO THE GREEN WIRE WITHIN 2 FEET OF THE COILS TOP.

-> DON'T BE AFRAID OF THE LITTLE BOLTS OF ELECTRICITY SHOOTING FROM THE TOP OF THE COIL...
10. WITHIN 3 SECONDS A BOLT OF LIGHTNING WILL SHOOT FORTH AT THE PHONE FROM THE HAND YOU ARE HOLDING THE BALLS IN. [MISSING PART WHEN RECEIVED] THE GREEN CONNECTED METAL BALL. (HOLD ON TIGHT CAUSE IT'LL FEEL LIKE LOADS OF ANTS!) YOU WILL IMMEDIATLY HEAR MANY STRANGE OCCILATIONS TO THE CARRIER ON THE PHONE. 'HE LAST NOISE YOU WILL HEAR IS A POP! FROM THE PHONE. (THAT IS THE LAST CRY OF AGONY AS IT SHUTS DOWN.)

CROSSBAR JUST DISCONNECTS. GUARANTEED TO FRY THE MODEM, THE COMPUTER AND ANY PERIPHERALS OR ANYONE WHO ANSWERS THE PHONE!
