ello.World!

Welcome to the first issue of The Programmer's Digest™.   THE free source for coding.   We hope to cover issues that concern all programmers, from beginner to   expert levels, for every major platform.   Writers are always needed, so write to ProgrammerDigest@yahoo.com, or drop by Programmer's Digest server on Hotline if you want to write for us.   We hope to use as much new material as we possibly can.   I'll keep it short and sweet.   On to the Digest.   Hex, Bugs, and Rock'n Roll!
