

To install Lith-O-Hell you must already have Quickeys™ installed on your Mac. If not, you must install Quickeys™. If so, follow these steps to complete the installation of Lith-O-Hell:

- Step 1: Place the Lith-O-Hell keyset into the Quickeys™ Keysets folder, which is located inside the Quickeys™ folder inside the Preferences folder.
- Step 2: Place the Lith-O-Hell sequences into the Quickeys™ Sequences folder, which is located inside the Quickeys™ folder inside the Preferences folder.
- Step 3: Open up Quickeys™ from the Apple menu.
- Step 4: Select "Open Set..." from the File menu in Quickeys™ and open up the Lith-O-Hell keyset.
- Step 5: Press cmd-A to select all of the sequences from Lith-O-Hell. Then press cmd-C to copy all of those sequences to the clipboard.
- Step 6: Go under the "Sets" menu in Quickeys™ and select the first one, called "Universal."
- Step 7: Press cmd-V to paste all of the Lith-O-Hell sequences into the Universal keyset.
- Step 8: Press OK, and you're done!
