Application for becoming a writer for EMC

So you want to become a part of EMC?

This file is distributed to all people who have inquired about writing for EMC, please take 5 minutes to answer these questions.

Approximately, how long have you been around on the internet, specifically IRC?

What is your nick on IRC?

What is your e-mail address?

What type of computer do you have?

What type of connection to the net do you have (33.6, ISDN, T1, etc.)?

What would you like to be participate in for the EMC issues (pick any of the sections)?

Do you have your own webpage?   If so, what is the url?

What dial-up/net boards are you on?

What are the nicks/aliases of others who can vouch for you?

Thank you for taking the time to answer this, your application will be evaluated.
Please send your response to: freakman@altitude.firsttech.com

Do you want to help distribute future issues of EMC?

We would like all of the help we can get as far as distribution goes, that way the issues get out a lot faster.

Feel free to put links on your homepage to http://altitude.firsttech.com/ntbbs/emc.html so that people can go directly to the homepage.   All we ask is that you provide a link to the EMC page, and people can download from the website--this way we get a feel for how many download EMC issues.

If you offer files on IRC, feel free to include the latest EMC issues in your filelisting, to get the latest EMC issues, emcCTCP on EFNet in channel #macfilez has them, otherwise visit the website.

Thank you!
