bout HackUser

Welcome the the new issue of HackUser™.   These issues are based on all the serial
numbers and cracks applications made from others and combined into one.   Special thanks
to The Informant, Hackers Helper, Buck's Cracks all the people who made it possible to
archive these.   These issues were not made to compete with others, but to provide old
serial numbers.   We decided to make these issues because of the fact that that other serial
number archives sometimes delete the old serial numbers to make room for new ones.   At a
time when you need one it becomes very difficult to find old versions.   We at HackUser™
hope this helps.   We will include a "Whats New?" in every issue for all those who want the
latest and greatest.   This issue will grow at a phenomenal rate each month so make sure
you always have the latest issue.   These issues of HackUser have more codes than any
other serial number database.

You can use these serial numbers to make a application usable if it requires a serial number
to run.   You can also use these serial numbers to order upgrades and competitive upgrades
from catalogs and stores.

If you have any new serial numbers or any questions get in touch with a member of
HackUser™ Corporation.

To Use This Archive:
To find a serial number.   Go to the menu and select "find".   Type name of the program,
company   or part of the name of the program.   Press Enter.   If the program is not found in
the search press enter again to go to the next item or change the subject of the search.
