

## Home

This is the frontpage of MacAddict Hacker.

## Try Before You Buy

Includes codes and icons of all the cool software in the folder marked "Try Before You Buy" in the MacAddict CD. Very useful for when your too lazy to download the software.

## Software

We wanted to include hacks and serial numbers on the files located in the "Software" folder on the MacAddict CD. Again this is great to use the software from the cd rather than wasting bandwidth.

## Get Info

In this issue Voider gets info on Adobe Photoshop 5.0 beta. Tells about how he liked it and some technical information also.

## Reviews

Software reviews from pirates who know software better than anyone else. This month we are reviewing Bucks Serial Number Generator v2.5.

### [This Old Hacker](#) **NEW**

Written by Dr.Paul it has great writings on just about anything.

### [Thanks](#)

For all the people who helped make this issue of MacAddict Hacker.

### [Letters](#)

People send us letters and opinions, and we print em. Very simple.

### [Contact Us](#)

Information on how to get ahold if us at MacAddict Hacker.
