

These codes will be to unlock the software included on MacAddict CD.
These programs are located in the "Software" folder.

I didnt have time to lookup all the codes for the first issue, but this section will be full of goodies in the next version.

If you would like to volunteer to look up the codes for these files, go for it!. I will include you in the next issue. Make sure to include your icon so we can thank you on the "Thanks" page.

Thank you.
