Why is there anarchy in the US? we have a practically perfect government! the only reason for those actions are that people want attention!#if we would all just chill we'd live all happily...

Just next time when you go out'a'bombing think "why am i messing with the only governement that is fair?". if you want to be anarchic, go to some small african country that has a dictator.

the only anarchy that should happen in the us should be against the fcC!\$ with their radio laws! i want to HAVE MY OWN RADIO STATION!!!! all the music here sucks....if i make a pirate one all of my stuff would get taken and thats no good....could someone send an article on "how to make a pirate radio station" or soemthing?....i'd publish it and probably use it :P

the main reason why the FcC does not let little radio stations on the air is that there is pressure from big comparies to keep them out of the buisness.
