says that I should write down what I feel as if I want to sayto people but cant quite say, in a personal journal, I have
picked mycomputer journal since all hackers keep them. So here I go taking mydoctors advise and spewing out what
I would like to say to the community only I could get over my shyness. I might not be your normal everyday person
whom you see on the streets, sure im "antisocial" and mabye I'm a little "grouchy" and yes, mabye abit "Irritable" at
times. But in no way does it mean I "have a hairy crack" or "Like Puppies" it certianly doesnt mean I "Eat my own
dandriff". People are just jealous of antionline.com when they say I "Wreak of fish" or "Not smart Enough to drive" I
"Pee sitting down" or i "Poop my pants""Cant fix my own zipper" or sometimes I "have a wandering eye" just becuase
I like to wear baggy pants doesnt mean I'm a "Special stewdent" or a "Bug eyed E.T. looking freak" It doesnt mean Im
"Allergic to stoolsamples" The Fact is I like stool samples alot! This is my manifesto, a manifesto for all the hackers
who feel oppressed by todays weak society. We must raise our PITTs in resistance, for it is not futile to break the
security of our oppressing fathers. We haveto say BITCH STOP CALLING ME A "Pedophiliac" or "The gym teachers
ballholder" or "Living shame to all of those, alive, deceased and the aboveheavens" Quit oppressing me society, we
live in the age of the atom, the birthof the baud, where the data flows through our veins like herion. If your not awake
to smell the coffe and hack your way out of this oppresion then for the love of god I will take my life into my own
hands. I am JP, the living god, immortalized on webpages such as antionline.com, my name spreads like fire, and
burns like ice. Where ever I go, balls drop for me. Follow me my children. I JP am your leader to a journeyin which
they call antionline.[-=-=-JAYPEE"Z BAWX-=-=-] C:\r00t> hah0h0h0h3hahaha0h0h0h \V\4t3v3r!@#@!Bad
