

ANARCHY IS FREEDOM

If you are glib and follow the media and believe everything it says then you probably believe that you are living the life in the perfect country and the best government, though you are mistaken.

This country we live in (America) may be more "free" than most other countries or previous civilizations, but that doesn't mean that it is ok to settle for something so far away from actual freedom just because we may be a little free'er. Though now we live in a civil society which is eroding worldwide in the face of capitalist corporate wealth and power, and destroying what we have worked for since the the begining, freedom. In this respect, it shows what true anarchists are about, trying to gain and sucure the existence of freedom. Anarchists support direct action, and incurage people to get involved in supporting the fight against the government. Anarchist believe in doing things for yourself, not letting others decide your fate for you (like the government). Because like many know we dont need people telling us what to do! This is where anarchy comes in, anarchy is true freedom. You do things for yourself, not putting your needs on someone else to do for you. Doing things for yourself shows independence from others and from any organization, thus being free. That is how anarchy is freedom!
