For technically-minded users, a description of how the *Power Utility Pak* works.

Overview

The *Power Utility Pak* is an add-in that works in conjunction with Microsoft Excel 5.0 or later. It consists of three parts:

- 1. A set of 17 utilities that add new features to Excel. You can access these using the *Power Utility Pak* toolbar, or from the menu.
- 2. A collection of 17 new worksheet functions that can be used just like Excel's built-in functions.
- 3. Enhanced shortcut menus. These are the menus that appear when you right-click an object.
