The *BioNet* Case Notes Tutorial

copyright © A.G.Booth and J.F. Danks 1989, 1993

The material in this book is subject to copyright. However, you may use the information contained here, together with the starter file PETER . CBK to reauthor your own patient files subject to the following conditions:

No substantial change is made to the loader application CASENOTE . TBK.

Your reauthored patient files are made freely available within the higher education sector.

Copies of your reauthored files are deposited on the *BioNet* software archive. This is an FTP site whose Internet address is ftp . bionet . leeds . ac . uk and which contains freely-distributable computer-based teaching software in the biosciences. For more information download the 00README . TXT file from the archive or send email via the Internet to:

bmb6agb@leeds . ac . uk

All of the files necessary for setting up and reauthoring Case Notes can be downloaded from the directory /public/general on the *BioNet* FTP server.

This is a product of the *BioNet* Teaching and Learning Technology Programme
