Copyright Dr Gordon Beakes, Sourced from the LTSN Imagebank

## Project aims

- To produce learning support material/activity sheets to accompany a video series 'Intimate Strangers: Unseen Life on Earth' (year 1 and 3)
- To determine which of the 12 video programmes are most appropriate to a first year Biological Sciences (Microbiology) audience
- To evaluate the success of the activities

## Project outcomes

- Activity sheets for first years for completion whilst watching three of the video programmes, with evaluation
- Activity sheets/tutorial activity for year three students (emerging infectious diseases), with evaluation

• Poster presented at Society for General Microbiology, and American Society for Microbiology meetings
