About the journal

The Bioscience Education Electronic Journal is a free, online journal produced by the Centre for Bioscience. The journal aims to promote, enhance and disseminate research, good practice and the exchange of ideas through its range of articles. These articles include peer-reviewed research and practice papers, as well as reviews and descriptive accounts.

Journal features

- **Rapid publication:** with electronic submission & review procedures, articles are made available online as soon as possible after they are accepted.
- Volumes are closed & publicised in June & December annually
- Author guidelines & submission deadlines are available from the website. Research papers, descriptive accounts & reviews on subjects of interest to academic & support staff in the biosciences are all welcome.

Recent articles

- **Research article:** Plagiarism: Do Students Know What it is?
- **Research article:** Supporting the Development of Undergraduates' Experimental Design Skills and Investigating their Perceptions of Project Work
- **Research article:** A Tool for Mapping Research Skills in Undergraduate Curricula
- **Essay:** Approaches to the teaching of bioethics and professional ethics in undergraduate courses
- **Descriptive account:** Correlates between Bioscience Students' Experiences of Higher Education and the Neurobiology of Learning
- **Descriptive account:** Using online microassessments to drive student learning
- **Short communication:** Never again shout, "that would have been useful for my teaching!" at the TV
