

## Removing Unwanted Carriage Returns

Article Created: 30 July 1993

TOPIC-----

When I write paragraphs in the Notepad, I end up with spaces and carriage returns where I don't want them. How do I fix that?

DISCUSSION-----

To remove unwanted carriage returns and spaces, box select the entire paragraph and tap once on the border.

To adjust the margins of your paragraph, box select the paragraph and drag the right or left side of the box until your margins are satisfactory.
