

Sheet1

- *---A macro to add data to a database. If you type a number the macro changes it to a label.
- *---Use the /Range Name Label Right {End} {Down} <ENTER> to define the range names in this column (starts with the \Z macro name)
- *---Place the cell pointer on the upper left cell of your database field names. The data base should have at least two records.
- *---Hold the <ALT> key and press <Z> to activate the macro
* * * Use the SAMPBASE.WK1 file as an example * * *
