

Sheet1

- *---A macro to SORT by MULTIPLE KEYS
- *---Use the /Range Name Label Right {End} {Down} <ENTER> to define the range names in this column (starts with the \Z macro name)
- *---Hold the <ALT> key and press <Z> to activate the macro
- *---Highlight the data range PLUS one more empty column to the right, the macro uses the extra column for the sorting process.
- *---Works with labels only. Example: zip codes must be entered as labels
WILL NOT WORK WITH RELEASE 3
