## **SCAN ORDER FORM**

Please specify the formats with which your graphic should comply by completing this form. To specify different formats for different graphics, please complete one form for each format you want (i.e. you may want one photo scanned to GIF on a 5.25" floppy and another to a BMP file):

TYPE OF SCAN	<u>GRAPHIC FORMAT</u>
□ 24-bit color (16.7 million colors) <sup>1</sup>	□ BMP (Windows bitmap)
□ 8-bit color (256 colors) <sup>2</sup>	□ PCX (suitable for most DTP programs)
□ 8-bit grayscale (256 shades)	□ GIF
□ Line art (black & white)	□ TIF
SCANNING RESOLUTION	DISK FORMAT
□ 100 dpi (default for most color orig.s)	□ 3.5" diskette
□ 200 dpi (default for smaller color orig.s)	□ 5.25" floppy
□ 300 dpi (recommended for line art)	
□ 400 dpi	

## **YOUR ADDRESS**

Name:

Street:		
City, State, Zip:		

Originals measuring 4" X 6" or less work best. Larger images and higher scan resolutions will result in greater RAM consumption and larger on-screen images, and require you to scroll the screen to see the entire image or to re-size the image with a graphics program.

	PRICING	
1st original (includes shipping/handling)*		\$ 8.00
Second to fourth original		\$ 6.00
Five originals or more		\$ 4.00

<sup>\*</sup> If original is oversize (over  $5 \times 7$ ") and you want it returned, please include an additional \$ 1.50 to cover the additional cost of a large envelope and mailing. All others will be returned with the disk.

Please make checks payable to **H. Conwi** and send originals and payment to:

H Conwi 2198 Ogden Avenue, # 128 Aurora, IL 60504

<sup>&</sup>lt;sup>1</sup> Requires Truecolor video card capable of showing 16 million colors.

<sup>&</sup>lt;sup>2</sup> Requires EGA or VGA video card.
