

My Card Collection is a Windows based card organizer. It allows card collectors to maintain collections of Single Cards, Complete Sets, as well as assisting you in maintaining Wanted Card Lists, and Missing Card Lists.

My Card Collection is a fully functional shareware program that can organize any group of individual single cards, or any set of cards. By Registering and ordering more sets, you can extend My Card Collection's ability to identify your cards. The un-registered version of My Card Collection comes complete with info to identify any card in 2 particular sets: the 1993 Topps Baseball Regular, and the 1975 Topps Baseball Regular sets. This will allow you to see first hand the capabilities of My Card Collection, and I encourage you to order additional sets.

Singles List Report

The Singles List report is a simple listing of all the Single cards in your collection, together with the Mint Condition, Very Good Condition, and Poor Condition Quantities of the cards you own. On this report, each card is only listed by Year, Manufacturer, Sport, Type, and Card #. There is no further information given about the card.

Detailed Singles List

The Detailed Singles Listing is a more detailed listing of the Single cards in your Collection. This report lists the Player's Last Name, the Team, the Description of the card, any Comments you made regarding the card, and the Mint Value of the card.

Below is shown the Detailed Singles Listing Dialog Box. Using this box, you specify you'de like a Detailed Single Card Listing from particular sets. You choose which sets by hi-lighting your choice of sets from the Available List, and moving them to the Selected List by clicking the "VCR" buttons between the two lists. When you have selected the appropriate sets, click the Report Button to generate the Report.

n NOTE: Remember, ONLY the 1975 & 1993 TOPPS BASEBALL REGULAR sets are included free with the un-registered version of My Card Collection. Any other sets have to be ordered separately. See the Registration and Ordering section of this Help file for details.
