## **Super Craps Version 2.3 Enhancements**

#### **Custom User Bets**

You can now create up to 99 *custom user bets*. To do so, press the **U** key or click on the box which displays the current player number. A dialog box will be displayed which will allow you to enter your custom bets. For more information, refer to the main help file under the section **Custom Bets**.

## **Payoff Calculation**

You can now calculate your payoff based on the next roll of the dice by clicking on the new **Calculate Payoff** button in the *Game Options* box. A dialog box will be displayed which will allow you to select the two dice values for the next roll. Your payoff for the selected dice points will then be displayed.

# **Switching Players**

The **Switch Players** button has been replaced by the **Calculate Payoff** button. To switch players in this version, click the mouse in the desired player's bankroll or wagers area of the screen.

## **New Exit Options**

When exiting Super Craps, you now have the option to independently save each player's bankroll.

## CD Player Support

If you have a CD player installed, you can play audio CD's while playing the game. To do so, press the  $\bf C$  key, and a dialog box will be displayed which will allow you to control the CD player. You can also press the  $\bf N$  key for the next track, or the  $\bf P$  key for the previous track.

### **Place Bet Repeat Options**

The place bet repeat options dialog box has been enhanced to allow you to increase or decrease your bet by 1 unit, or to regress your bet to the minimum.

## **Current Roll Profit Display**

You current roll profit is now displayed as part of the game title at the top of the screen. To activate this display, move the cursor to an area which is not a valid bet area, such as the *Game Options* box or *Player Information* box.

### **Maximum Bet Increase**

The maximum bet has been increased to **\$1000**. You can change the maximum bet in the extended game options dialog box.

**Note:** Any bets over \$999 will display as **\$\$** in your bet token. To see the actual bet amount, move the cursor to your bet and the game title at

the top of the screen will display your actual bet and odds amounts.

## **Maximum Odds Increase**

You can now set the maximum odds up to 9X.

**Note:** Any odds bets over \$999 will display as **\$\$** in the odds token. To see the actual odds amount, move the cursor to your bet and the game title at the top of the screen will display your actual bet and odds amounts.

## **Bet Removal**

If you have a 3 button mouse, clicking the middle button will remove the currently selected bet, if allowable.

**Note:** This will only work if your middle mouse button is not programmed for some other function, such as a left button double click.
