

# **Welcome to Imagine the Photos, a collection of images for graphic development and presentations.**

## **Imagine the Photos - Background Collection Vol.1: Digital Backgrounds 1**

100% computer generated background images of extraordinary quality that is a must for every professional.

### **Background Collection Vol.1: Digital Backgrounds 1 CD contains**

- 100 images in 3 resolutions: low res in TIFF format, medium and high res in JPEG format
- Imaginator v1.0 displaying all 100 images contained in Digital Backgrounds 1
- Catalog includes prints of all 100 images

### **All background images on this CD come in 3 Resolutions**

The low resolution TIFF files are found in the LO RES folder and are ready for import into any popular graphic design or page layout application. The medium and high resolution JPEG images are found in MED RES and HI RES folders respectively.

LO RES - Contains all of the low resolution (approximately 900K, 72dpi) RGB TIFF images of Background Collection Vol.1: Digital Backgrounds 1. These can be used for multimedia projects, web page designs, on-screen viewing and comps.

MED RES - Contains all of the medium resolution (approximately 10MB, 300dpi) RGB JPEG images of Background Collection Vol.1: Digital Backgrounds 1. These files may be used in high quality full color printing.

HI RES - Contains all of the high resolution (approximately 28.5MB, 300 dpi) RGB JPEG images of Background Collection Vol.1: Digital Backgrounds 1. These files may be used in high quality full color printing.

### **Imaginator v1.0: Quick Viewing Image Browser**

This CD ROM includes a comprehensive image browsing program called Imaginator v1.0 for the Mac & PC. This allows 10 thumbnail images within one screen and allows for image loading faster than any other browser. By selecting Hi, Med, Lo res button at the bottom, you can also open preview image directly in an image editing program such as Adobe Photoshop. (If the program is not running, it'll start the program.)
