Welcome to epsPRO 4 for IBM PC compatibles and
the Macintosh.

These images are for use in your existing DTP (Desktop
Publishing) applications.

To install ---

WINDOWS Only

1.   Start Windows.

2.   In the Program Manager or File Manager, click on the
      "FILE" menu option.

3.   Click on the "RUN" menu option.

4.   In the "Command Line Box" type the following:
      "The CD-ROM Drive Letter":\INSTALL.EXE

This will create a program group icons in the Program
Manager to launch the preview movies. To preview the images
in a category: double click on the icon for that category,
once the movie is open click on the play button (it looks
like a triangle pointing to the right) to start the movie

If you have windows, then you may be able to view the
"slide" show previews of the images. The images on this CD-
ROM are for use in your desktop publishing applications.
They are provided in a variety of formats for your
convenience, including EPS and TIF. Please note that the
TIF images are a bitmapped format and not postscript and
will not print with as high a resolution.

The images are organized by format in the "PC" and folder,
and each image is available in both formats. The 800+
images on this disc are sorted into 26 different categories.
To preview the images in a category, double click on the
icon for that movie, then click the play button (it looks
like a triangle pointing to the right).

See the file "FILELIST.TXT" in the "PC" and "Windows"
directory for a complete list of the topics available, the
image descriptive names and their DOS file names.
