Put your ideas in motion. Create interactive presentations, with professional-quality animation, sound effects, music and video. Option animated presentation templates, clip animations, buttons, backgrounds, transitions, music and sounds. Better still, create your own animations from scratch, using the sophisticated Paint and Animation program. Import a PowerPoint or Persuasion file and choose a template; Cinemation will animate each line of text and add music and transitions automatically. Pull together different movies into one presentation. A Ghosting feature shows you a series of frames through a transparent easel, so you can paint in between frames or align objects. Facilities include scaling, rotating, cropping; wipes, dissolves, fades, reveals, zooms, blinds.

Cinemation Pricing;
1 copy; £295.00.
