

The new, fast-action, falling-block Soviet game from the designers of Tetris. The falling pieces are letter blocks; instead of forming lines, you make words. Create them horizontally or vertically, and every time a word lines it, poof! - the letters disappear. More and more complex words build up your points. The challenge builds as the levels go higher and the blocks fall faster and faster.

- 30,000 word expandable dictionary
- 10 levels, from Novice to Master
- Single~ and Multi~Player modes
- Special fun features: magic words, wild card letters, gold bonus point etters
- Original music and sound effects
