

When it comes to getting "real work" done, you now have a lightning fast ToDo List Manager with reminders that helps you stay focused on the priorities at hand. FTF not only lets you see in a split second what is urgent, but it also lets you review what is important! It is a Priority Management/Reminder tool that you will use whenever you are at your Mac – which is why it was voted "Mac Utility of the Year" by the MUG News Svc.
