

More is the fastest way to organize and present your ideas, from initial concept to final presentation. Organize, and develop your concepts on its powerful outliner. Write your report on its full-featured word processor. Choose from dozens of ready-made templates to format your work in a single step. Use its advanced presentation features to produce 35mm slides, overhead transparencies, charts and graphs. Use its powerful drawing tools to produce polygons and Bezier curves on gradient colour backgrounds. And there's more - instant tree charts, a step-by-step Chart Tutor, and translators from many other applications, including Word.
