NET NANNY **SHAREWARE** $39.95

Net Nanny is the only software program that allows YOU to monitor, screen and block access to anything residing on, or running in, out or through your PC, online or off. It's two-way screening in real-time and only YOU determine what is screened with the help of our site list which can be downloaded free from this site. Net Nanny allows you to deal with: WWW URLs, News Groups, IRC Channels, FTPs, E-mail, Non-Internet BBSs, Words, Phrases, Personal Information (address, credit card no. etc.), and control access and use of any local PC files, drives, loading of unauthorized diskettes and CD-ROMs and point & click commands. It's a complete Internet and PC management tool.

- Operates on the Internet, non-Internet BBSs, All major online services such as Compuserve, AOL & Prodigy (Both proprietary and Internet components) and all local applications running on the PC.

- No monthly site update subscription fees ever!
