

Chapter 3 Hands-On Question 1

Grading Checklist

web_sites.htm:

- _____ adds a comment with today's date
- _____ adds the title Web Sites
- _____ adds a gray background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds a horizontal rule across 50% of the page, aligned left below the heading
- _____ adds the specified text in a paragraph below the horizontal rule
- _____ links the text portal to portal.htm
- _____ saves the HTML document with the name web_sites.htm
- _____ prints a copy of the HTML document

portal.htm:

- _____ adds the title Portal Web Sites
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds the specified paragraph text
- _____ saves the HTML document with the name portal.htm
- _____ prints a copy from the Web browser

Chapter 3 Hands-On Question 2

Grading Checklist

site_categories.htm:

- _____ adds a comment with today's date
- _____ adds the title Web Sites
- _____ adds a yellow background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds a horizontal rule across 50% of the page, aligned left below the heading
- _____ adds the specified text in a paragraph below the horizontal rule
- _____ links the text e-commerce to ecommerce.htm
- _____ saves the HTML document with the name site_categories.htm
- _____ prints a copy of the HTML document

ecommerce.htm:

- _____ adds the title E-commerce Web sites
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds the specified paragraph text
- _____ saves the HTML document with the name ecommerce.htm
- _____ prints a copy from the Web browser

Chapter 3 Hands-On Question 3

Grading Checklist

html_demo.htm:

- _____ adds the title HTML document
- _____ adds the specified text in Heading 2 format
- _____ adds a horizontal rule across the width of the browser window
- _____ adds the specified text below the horizontal rule with the proper paragraph alignment
- _____ adds a break tag after the text A break tag
- _____ replaces Student Name in the last paragraph with their name
- _____ saves the HTML document with the name html_demo.htm
- _____ prints a copy from the Web browser

Chapter 3 Hands-On Question 4

Grading Checklist

html_tags.htm:

- _____ adds the title HTML document
- _____ adds the specified text in Heading 2 format
- _____ adds a horizontal rule across the width of the browser window
- _____ adds the specified text below the horizontal rule with the proper paragraph alignment
- _____ adds a break tag after the text A break tag
- _____ replaces Student Name in the last paragraph with their name
- _____ saves the HTML document with the name html_tags.htm
- _____ prints a copy from the Web browser

Chapter 4 Hands-On Question 1

Grading Checklist

- _____ defines a new site named Almonds in a folder named Almonds
- _____ adds two Web page documents named index.htm and almonds.htm

index.htm:

- _____ changes the page title to Almonds Home Page
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text almonds to almonds.htm

almonds.htm:

- _____ changes the page title to Almonds
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text Home to index.htm

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 4 Hands-On Question 2

Grading Checklist

- _____ defines a new site named Macadamias in a folder named Macadamias
- _____ adds two Web page documents named index.htm and macadamias.htm

index.htm:

- _____ changes the page title to Macadamias Home Page
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text macadamias to macadamias.htm

macadamias.htm:

- _____ changes the page title to Macadamias
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text Home to index.htm

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 4 Hands-On Question 3

Grading Checklist

- _____ defines a new site named Tiger in a folder named Tiger
- _____ adds two Web page documents named index.htm and tiger.htm

index.htm:

- _____ changes the page title to Chinese Zodiac
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text tiger to tiger.htm

tiger.htm:

- _____ changes the page title to The Tiger
- _____ adds a table with the specified properties
- _____ sets the width of the left and right cells in the third row as specified
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text Home to index.htm

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 4 Hands-On Question 4

Grading Checklist

- _____ defines a new site named Rat in a folder named Rat
- _____ adds two Web page documents named index.htm and rat.htm

index.htm:

- _____ changes the page title to Chinese Zodiac
- _____ adds a table with the specified properties
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text rat to rat.htm

rat.htm:

- _____ changes the page title to The Rat
- _____ adds a table with the specified properties
- _____ sets the width of the left and right cells in the third row as specified
- _____ adds the specified content
- _____ replaces Student Name in the table with their name
- _____ links the text Home to index.htm

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 5 Hands-On Question 1

Grading Checklist

- _____ defines a new site named Kayaking in a folder named Kayaking
- _____ adds two Web page documents named index.htm and types_of_kayaks.htm
- _____ creates an images folder and copies the kayak_logo.gif image into the folder

Library items:

- _____ creates a navbar library item with the specified hyperlinks
- _____ creates a footer library item with a time stamp and e-mail hyperlink
- _____ replaces Student Name in the footer with their name

index.htm:

- _____ changes the page title to About Kayaks
- _____ adds a table with the specified properties
- _____ inserts the kayak_logo.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Home
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Home
- _____ places the footer library item in the bottom row

types_of_kayaks.htm:

- _____ changes the page title to Types of Kayaks
- _____ adds a table with the specified properties
- _____ inserts the kayak_logo.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Types of Kayaks
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Types of Kayaks
- _____ places the footer library item in the bottom row

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 5 Hands-On Question 2

Grading Checklist

- _____ defines a new site named Sailing in a folder named Sailing
- _____ adds two Web page documents named index.htm and types_of_sailboats.htm
- _____ creates an images folder and copies the sailing_logo.gif image into the folder

Library items:

- _____ creates a navbar library item with the specified hyperlinks
- _____ creates a footer library item with a time stamp and e-mail hyperlink
- _____ replaces Student Name in the footer with their name

index.htm:

- _____ changes the page title to About Sailing
- _____ adds a table with the specified properties
- _____ inserts the sailing_logo.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Home
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Home
- _____ places the footer library item in the bottom row

types_of_sailboats.htm:

- _____ changes the page title to Types of Sailboats
- _____ adds a table with the specified properties
- _____ inserts the sailing_logo.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Types of Sailboats
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Types of Sailboats
- _____ places the footer library item in the bottom row

Printed copies:

- _____ checks the spelling in each of the Web page documents

Chapter 6 Hands-On Question 1

Grading Checklist

index.htm:

- _____ inserts the camera_question.gif image in the right cell of the third row and adds alternative text
- _____ sets the Map property to camera_question
- _____ creates a polygon hotspot and a rectangle hotspot on the image, links them as specified, and adds alternative text
- _____ replaces the text in the top row with the safari_logo_a.gif image
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates title_safari.png as specified
- _____ exports the image with the specified settings to the images folder

Chapter 6 Hands-On Question 2

Grading Checklist

index.htm:

- _____ inserts the photo_prices.gif image in the right cell of the third row and adds alternative text
- _____ sets the Map property to photo_prices
- _____ creates a polygon hotspot and a rectangle hotspot on the image, links them as specified, and adds alternative text
- _____ replaces the text in the top row with the safari_logo_b.gif image
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates safari_title.png as specified
- _____ exports the image with the specified settings to the images folder

Chapter 6 Hands-On Question 3

Grading Checklist

photos.htm:

- _____ inserts the deer.jpg image in the empty cell above the lizard photo and adds alternative text
- _____ crops the image as specified and resets the size of the image
- _____ center aligns the image
- _____ inserts the rhinos.jpg image in the empty cell above the elephant photo and adds alternative text
- _____ center aligns the image
- _____ resizes the image as specified and then optimizes the image in Fireworks
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Chapter 6 Hands-On Question 4

Grading Checklist

photos.htm:

- _____ inserts the rhinos.jpg image in the empty cell above the lizard photo and adds alternative text
- _____ crops the image as specified and resets the size of the image
- _____ center aligns the image
- _____ inserts the deer.jpg image in the empty cell above the elephant photo and adds alternative text
- _____ center aligns the image
- _____ resizes the image as specified and then optimizes the image in Fireworks
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Chapter 6 Hands-On Question 5

Grading Checklist

park_info.htm:

- _____ pastes the navigation bar in the cell in the second row
- _____ modifies the appropriate button to initially appear in the Down state
- _____ links the logo in the top cell to index.htm and adds alternative text
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates safarinarv_g.png as specified
- _____ creates a button symbol with the specified properties
- _____ creates instances of the button symbol and modifies them as specified
- _____ edits the button states as specified
- _____ exports the navigation bar with the specified settings to the images folder

Chapter 6 Hands-On Question 6

Grading Checklist

park_info.htm:

- _____ pastes the navigation bar in the cell in the second row
- _____ modifies the appropriate button to initially appear in the Down state
- _____ links the logo in the top cell to index.htm and adds alternative text
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates safarinarv_o.png as specified
- _____ creates a button symbol with the specified properties
- _____ creates instances of the button symbol and modifies them as specified
- _____ edits the button states as specified
- _____ exports the navigation bar with the specified settings to the images folder

Chapter 6 Hands-On Question 7

Grading Checklist

Library item:

_____ modifies the footer library item as specified and updates all occurrences

index.htm:

_____ inserts the shell_words.gif image in the right cell of the third row and adds alternative text

_____ crops the image so the extra shell at the top of the graphic is removed

_____ resizes the image as specified and then optimizes the image in Fireworks

_____ sets the Map property to shells

_____ creates appropriate hotspots on the image, links them as specified, and adds alternative text

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

types_of_shells.htm:

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ links the logo in the top cell to index.htm

cleaning_shells.htm:

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ links the logo in the top cell to index.htm

Fireworks:

_____ creates shells_logo_a.png as specified

_____ exports the image with the specified settings to the images folder

_____ creates shellsnav_a.png as specified

_____ creates a button symbol with the specified properties

_____ creates instances of the button symbol and modifies them as specified

_____ edits the button states as specified

_____ exports the navigation bar with the specified settings to the images folder

Printed copies:

_____ prints a copy of each of the Web page documents

Chapter 6 Hands-On Question 8

Grading Checklist

Library item:

_____ modifies the footer library item as specified and updates all occurrences

index.htm:

_____ inserts the shell_words.gif image in the right cell of the third row and adds alternative text

_____ crops the image so the extra shell at the top of the graphic is removed

_____ resizes the image as specified and then optimizes the image in Fireworks

_____ sets the Map property to shells

_____ creates appropriate hotspots on the image, links them as specified, and adds alternative text

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

types_of_shells.htm:

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ links the logo in the top cell to index.htm

cleaning_shells.htm:

_____ pastes the navigation bar in the second row

_____ modifies the appropriate button to initially appear in the Down state

_____ inserts the title_shells.gif image in the top cell and adds alternative text

_____ links the logo in the top cell to index.htm

Fireworks:

_____ creates shells_logo_b.png as specified

_____ exports the image with the specified settings to the images folder

_____ creates shellsnav_b.png as specified

_____ creates a button symbol with the specified properties

_____ creates instances of the button symbol and modifies them as specified

_____ edits the button states as specified

_____ exports the navigation bar with the specified settings to the images folder

Printed copies:

_____ prints a copy of each of the Web page documents

Midterm Examination Hands-On Question 1

Grading Checklist

transmission_media.htm:

- _____ adds a comment with today's date
- _____ adds the title Transmission Media
- _____ adds a gray background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds a horizontal rule across 50% of the page, aligned left below the heading
- _____ adds the specified text in a paragraph below the horizontal rule
- _____ links the text types to media_types.htm
- _____ saves the HTML document with the name transmission_media.htm
- _____ prints a copy of the HTML document

media_types.htm:

- _____ adds the title Types of Transmission Media
- _____ adds a gray background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds the specified paragraph text
- _____ saves the HTML document with the name media_types.htm
- _____ prints a copy from the Web browser

Midterm Examination Hands-On Question 2

Grading Checklist

media_transmission.htm:

- _____ adds a comment with today's date
- _____ adds the title Transmission Media
- _____ adds a yellow background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds a horizontal rule across 75% of the page, aligned left below the heading
- _____ adds the specified text in a paragraph below the horizontal rule
- _____ links the text types to types_media.htm
- _____ saves the HTML document with the name media_transmission.htm
- _____ prints a copy of the HTML document

types_media.htm:

- _____ adds the title Types of Transmission Media
- _____ adds a yellow background color
- _____ adds the specified text in Heading 1 format
- _____ replaces Student Name in the heading with their name
- _____ adds the specified paragraph text
- _____ saves the HTML document with the name types_media.htm
- _____ prints a copy from the Web browser

Midterm Examination Hands-On Question 3

Grading Checklist

- _____ defines a new site named Marine Debris in a folder named Marine Debris
- _____ adds three Web page documents named index.htm, research.htm, and cleanup_efforts.htm
- _____ creates an images folder

Library items:

- _____ creates a navbar library item with the specified hyperlinks
- _____ creates a footer library item with a time stamp and e-mail hyperlink
- _____ replaces Student Name in the footer with their name

index.htm:

- _____ changes the page title to Marine Debris
- _____ adds a table with the specified properties
- _____ inserts the marine_logo_a.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Home
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Home
- _____ places the footer library item in the bottom row

research.htm:

- _____ changes the page title to Research
- _____ adds a table with the specified properties
- _____ inserts the marine_logo_a.gif image in the top cell, links the image to index.htm, and adds alternative text
- _____ places the navbar library item in the second row and adjusts the links appropriately
- _____ places the footer library item in the bottom row
- _____ adds the specified content in the third row

cleanup_efforts.htm:

- _____ changes the page title to Cleanup Efforts
- _____ adds a table with the specified properties

- _____ inserts the marine_logo_a.gif image in the top cell, links the image to index.htm, and adds alternative text
- _____ places the navbar library item in the second row and adjusts the links appropriately
- _____ places the footer library item in the bottom row
- _____ adds the specified content in the third row

Fireworks:

- _____ creates marine_logo_a.png as specified
- _____ exports the image with the specified settings to the images folder

Printed copies:

- _____ checks the spelling in each of the Web page documents

Midterm Examination Hands-On Question 4

Grading Checklist

- _____ defines a new site named Marine Debris in a folder named Marine Debris
- _____ adds three Web page documents named index.htm, research.htm, and cleanup_efforts.htm
- _____ creates an images folder

Library items:

- _____ creates a navbar library item with the specified hyperlinks
- _____ creates a footer library item with a time stamp and e-mail hyperlink
- _____ replaces Student Name in the footer with their name

index.htm:

- _____ changes the page title to Marine Debris
- _____ adds a table with the specified properties
- _____ inserts the marine_logo_b.gif image in the top cell
- _____ places the navbar library item in the second row and removes the link from the text Home
- _____ adds the specified content in the third row
- _____ places the navbar library item in the fourth row and removes the link from the text Home
- _____ places the footer library item in the bottom row

research.htm:

- _____ changes the page title to Research
- _____ adds a table with the specified properties
- _____ inserts the marine_logo_b.gif image in the top cell, links the image to index.htm, and adds alternative text
- _____ places the navbar library item in the second row and adjusts the links appropriately
- _____ places the footer library item in the bottom row
- _____ adds the specified content in the third row

cleanup_efforts.htm:

- _____ changes the page title to Cleanup Efforts
- _____ adds a table with the specified properties

- _____ inserts the marine_logo_b.gif image in the top cell, links the image to index.htm, and adds alternative text
- _____ places the navbar library item in the second row and adjusts the links appropriately
- _____ places the footer library item in the bottom row
- _____ adds the specified content in the third row

Fireworks:

- _____ creates marine_logo_b.png as specified
- _____ exports the image with the specified settings to the images folder

Printed copies:

- _____ checks the spelling in each of the Web page documents

Midterm Examination Hands-On Question 5

Grading Checklist

index.htm:

- _____ pastes the navigation bar in the second row
- _____ modifies the appropriate button to initially appear in the Down state
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates musicnav_pur.png as specified
- _____ creates a button symbol with the specified properties
- _____ creates instances of the button symbol and modifies them as specified
- _____ edits the button states as specified
- _____ exports the navigation bar with the specified settings to the images folder

Midterm Examination Hands-On Question 6

Grading Checklist

index.htm:

- _____ pastes the navigation bar in the second row
- _____ modifies the appropriate button to initially appear in the Down state
- _____ prints a copy of the Web page document

Fireworks:

- _____ creates musicnav_pink.png as specified
- _____ creates a button symbol with the specified properties
- _____ creates instances of the button symbol and modifies them as specified
- _____ edits the button states as specified
- _____ exports the navigation bar with the specified settings to the images folder

Chapter 7 Hands-On Question 1

Grading Checklist

index.htm:

- _____ links a style sheet named `careers_styles.css` to the Web page
- _____ creates a style to redefine the `body` tag as specified
- _____ tags the text in the first paragraph in the third row with `<p>` and `</p>`
- _____ creates a style to redefine the `p` tag as specified
- _____ creates selector styles to redefine `a:link` and `a:visited` as specified
- _____ tags the five paragraphs below the text "Career planning should involve" as an unordered list
- _____ creates a style to redefine the `ul` tag as specified
- _____ creates a class style named `.footer` with the specified formats
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item
- _____ creates a class style named `.topnavbar` with the specified formats
- _____ applies the topnavbar style to the cell containing the top navigation bar

education.htm:

- _____ links the `careers_styles.css` style sheet to the Web page
- _____ tags the text `Career Planning` in the first row with `<h1>` and `</h1>`
- _____ creates a style that redefines the `h1` tag as specified
- _____ tags the text `Selecting a College or University` with `<h2>` and `</h2>`
- _____ creates a style that redefines the `h2` tag as specified
- _____ applies the topnavbar style to the cell containing the top navigation bar
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item

portfolio_tips.htm:

- _____ links the `careers_styles.css` style sheet to the Web page
- _____ creates a class style named `.localnavbar` with the specified formats
- _____ applies the localnavbar style to the cell containing the local navigation bar
- _____ applies the topnavbar style to the cell containing the top navigation bar
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item
- _____ tags the text `Career Planning` in the first row with `<h1>` and `</h1>`

- _____ tags the nine paragraphs below the text "...designed for a job search are:" as an unordered list
- _____ places the `ADVANTAGES.txt` file in the empty paragraph in the third row
- _____ inserts an anchor named `distributed` in the right cell in the third row, and links the local navigation bar text to the anchor

Printed copies:

- _____ prints a copy of each of the Web page documents

Chapter 7 Hands-On Question 2

Grading Checklist

index.htm:

- _____ links a style sheet named `careers_styles.css` to the Web page
- _____ creates a style to redefine the `body` tag as specified
- _____ tags the text in the first paragraph in the third row with `<p>` and `</p>`
- _____ creates a style to redefine the `p` tag as specified
- _____ creates selector styles to redefine `a:link` and `a:visited` as specified
- _____ tags the five paragraphs below the text "Career planning should involve" as an unordered list
- _____ creates a style to redefine the `ul` tag as specified
- _____ creates a class style named `.footer` with the specified formats
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item
- _____ creates a class style named `.topnavbar` with the specified formats
- _____ applies the topnavbar style to the cell containing the top navigation bar

education.htm:

- _____ links the `careers_styles.css` style sheet to the Web page
- _____ tags the text Career Planning in the first cell with `<h1>` and `</h1>`
- _____ creates a style that redefines the `h1` tag as specified
- _____ tags the text Selecting a College or University with `<h2>` and `</h2>`
- _____ creates a style that redefines the `h2` tag as specified
- _____ applies the topnavbar style to the cell containing the top navigation bar
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item

portfolio_tips.htm:

- _____ links the `careers_styles.css` style sheet to the Web page
- _____ creates a class style named `.localnavbar` with the specified formats
- _____ applies the localnavbar style to the cell containing the local navigation bar
- _____ applies the topnavbar style to the cell containing the top navigation bar
- _____ applies the footer style to the cells containing the bottom navigation bar and the library item
- _____ tags the text Career Planning in the first row with `<h1>` and `</h1>`

- _____ tags the nine paragraphs below the text "...designed for a job search are:" as an unordered list
- _____ places the `ADVANTAGES.txt` file in the empty paragraph in the third row
- _____ inserts an anchor named `distributed` in the right cell in the third row, and links the local navigation bar text to the anchor

Printed copies:

- _____ prints a copy of each of the Web page documents

Chapter 8 Hands-On Question 1

Grading Checklist

index.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ adds a nested table with the specified properties in the second row
- _____ inserts the specified Flash button in the left cell of the nested table
- _____ inserts the specified Flash button in the right cell of the nested table
- _____ appropriately adjusts the widths of the nested table and table cells
- _____ prints a copy of the Web page document

Chapter 8 Hands-On Question 2

Grading Checklist

index.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ adds a nested table with the specified properties in the second row
- _____ inserts the specified Flash button in the left cell of the nested table
- _____ inserts the specified Flash button in the right cell of the nested table
- _____ appropriately adjusts the widths of the nested table and table cells
- _____ prints a copy of the Web page document

Chapter 8 Hands-On Question 3

Grading Checklist

shape_tweening.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ inserts the shape_blue.swf file in the empty cell in the fifth row
- _____ prints a copy of the Web page document

Flash:

- _____ creates the specified shape-tweened animation
- _____ exports the shape-tweened animation to the media folder naming it shape_blue.swf

Chapter 8 Hands-On Question 4

Grading Checklist

shape_tweening.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ inserts the shape_green.swf file in the empty cell in the fifth row
- _____ prints a copy of the Web page document

Flash:

- _____ creates the specified shape-tweened animation
- _____ exports the shape-tweened animation to the media folder naming it shape_green.swf

Chapter 8 Hands-On Question 5

Grading Checklist

animated_text.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ inserts the text_blue.swf file in the empty cell in the fifth row
- _____ clears the Loop check box of the Flash movie
- _____ prints a copy of the Web page document

Flash:

- _____ creates specified animated text
- _____ exports the animated text to the media folder naming it text_blue.swf

Chapter 8 Hands-On Question 6

Grading Checklist

animated_text.htm:

- _____ modifies the text Flash Demo in the top cell to read Flash Demo by Student Name, replacing Student Name with their name
- _____ inserts the text_green.swf file in the empty cell in the fifth row
- _____ clears the Loop check box of the Flash movie
- _____ prints a copy of the Web page document

Flash:

- _____ creates specified animated text
- _____ exports the animated text to the media folder naming it text_green.swf

Chapter 9 Hands-On Question 1

Grading Checklist

index.htm:

- _____ adds a jump menu with the specified items and appropriate hyperlinks in the empty cell in the second row
- _____ displays a Go button next to the jump menu
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Chapter 9 Hands-On Question 2

Grading Checklist

index.htm:

- _____ adds a jump menu with the specified items and appropriate hyperlinks in the empty cell in the second row
- _____ displays a Go button next to the jump menu
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Chapter 9 Hands-On Question 3 Grading Checklist

feedback.htm:

- _____ creates a form in the specified location
- _____ adds the specified labels to the form
- _____ adds the specified form objects to the form
- _____ appropriately names each form object
- _____ sets the name text fields to 15 characters
- _____ sets the e-mail text field to 25 characters
- _____ appropriately sets the action for each button
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Chapter 9 Hands-On Question 4

Grading Checklist

feedback.htm:

- _____ creates a form in the specified location
- _____ adds the specified labels to the form
- _____ adds the specified form objects to the form
- _____ appropriately names each form object
- _____ sets the name text fields to 15 characters
- _____ sets the e-mail text field to 25 characters
- _____ appropriately sets the action for each button
- _____ replaces Student Name with their name in the row below the bottom navigation bar
- _____ prints a copy of the Web page document

Final Examination Hands-On Question 1

Grading Checklist

Library item:

_____ modifies the footer library item as specified and updates all occurrences

index.htm:
