

For over two decades, E. Hoffmann Price was one of the major pulp authors. In addition to his work for the spicy pulps (where he was one of the few authors who allowed material to see print under his own name), he was a frequent contributor to WEIRD TALES and the adventure pulps, as well as writing for nearly every other pulp genre. Travelling the country extensively, Price met several other pulp authors during the 1930's and wrote of them in his pulp reminiscences which, sadly, remain unpublished. Portions of this work, however, have seen print in magazines such as WITCHCRAFT AND SORCERY and PULP ERA.
