Chapter 1

Techno

1.1 Techno Modules

```
 Techno modules:
```

Because there were quite a lot of techno modules of various styles as we took a
closer look, we decided to put them into a sub directory structure. And here we
are:

```
                          dance
                          tekkno
                          trance
                          jungle

                      Shuffle everything
```

```
have fun!
```
