METIS Engine and Tutorial Installation Instructions (Disk 1)

See the *Getting Started with METIS 3* guide on the CD under the \Metis\help directory for detailed installation instructions.

1. Insert the METIS 3.0 Engine / METIS 3.0 Tutorial CD (Disk 1). The install automatically starts.
2. Click "Install the METIS Engine" to install the METIS 3.0 Engine.
3. Click "Install the METIS Tutorial" to install the METIS 3.0 Tutorial.
4. Start METIS or the Tutorial from the corresponding icon on your desktop or from the Programs menu.

Notes:
- To install the HTML Help Upgrade on Windows NT, you must log in as a user with administrator privileges.
- For double-byte languages, such as Japanese, you must set a flag in the METIS 3 shortcut. See "Shortcut Options" in the *Getting Started with METIS 3* guide.

For information on what's new in METIS 3 click the "Getting Started with METIS" shortcut in your METIS 3.0 program group.

Access Help from the METIS Help menu or by clicking the "Modeling with METIS' shortcut in your METIS 3.0 program group.

METIS VPL and Model Browser Installation Instructions (Disk 2)

You must install the METIS 3.0 Engine before installing the Visual Planning Library (VPL).

See the *Getting Started with METIS 3.0 Visual Planning Library* document on the CD for detailed installation instructions.

1. Insert the METIS 3.0 Visual Planning Library / METIS 3.0 Model Browser CD (Disk 2).
2. Run D:\VPL30_Setup.exe, where D: is your CD-ROM drive, to install the METIS 3.0 Visual Planning Library.
3. Run D:\NCR_VPL30_Add-in_Setup.exe to install the NCR VPL Add-in.
4. Run D:\ModelBrowserSetup.exe to install the METIS 3.0 Model Browser.
5. To create a model from a VPL or Add-in template, start METIS, choose Model from Template, then select a template from the list that displays.
6. To browse a model, open a published model in your Web browser. (See *Getting Started with METIS 3* for instructions.)

For information on what's new, migrating models, and publishing on the web, click the "Getting Started with METIS Visual Planning Library" shortcut in the METIS 3.0 program group under VPL 3.0.

Access the VPL Help file from the METIS 3.0 program group under VPL 3.0 for detailed descriptions of all VPL templates, domains, and objects.
