                    How to contact me

                    Acknowledgments

1.2   Copyright

This program is freely distributable, but also © by Michael Bauer. It may be
copied as long as no more than a nominal fee is charged to cover time and
copying costs. Permission is granted for CDs made by Urban Dominik Mueller,
Meeting Pearls, Fred Fish, Danny Amor and SaarAG (Martin Schulze).

This program uses triton.library, which is Copyright © Stefan Zeiger.

If you like this program, I'd like to encourage you, to leave me a note. This

will motivate me to improve this little program ;c)

1.3 Introduction

I've started to write this program a little while ago, because I wanted to
try out Triton. On the other hand, I was bored by the original Prefs program.

1.4 Usage

There's not much to say. The usage is like the original program, except that
you need Stefan Zeiger's Triton library.

1.5 Todo

    - I hope that I haven't forgotten anything ;-)

1.6 How to contact me

    Michael Bauer
    Hegelstr. 27
    72072 Tuebingen
    Germany

    EMail: michael.bauer@zdv.uni-tuebingen.de
    or   u195305@pluto.rz.fh-reutlingen.de

    IRC: Gutgolf@#amigager

1.7 Acknowledgment

Thanks must go to: (there's no explicit order !!!) ;c)

    - Gwar, Schweisser, X-Cops, Faith no more, Colloseum, Peter Frampton,
      John Wetton, Robben Ford, Golden Earring

        for the soundtrack while writing this stuff ;c)

    - Dietmar Eilert (GoldED rulez)

    - Matt Dillon (Dice)

    - Jochen Wiedmann

        I've used Flexcat for the catalogs

```
    - Stefan Zeiger

        Triton is pretty nice

    - Volker "Zipperpig" Graf, Danny Amor, Jan Freuer, ...

        I don't know why ;c)

    - Matthias "Bloede Kuh" Luehr (alias DrMabuse)

        I don't know why ;c)

    - All the other guys and girls at #amiga and #amigager

    ...
```

1.8 Installation

Sorry, I'm to lazy to write an Installerscript now.

    You'll need to install the 'triton.library', e.g by starting the script
    in the Triton directory.

    Perhaps you'd like to install the catalog file.

    Copy the font program e.g to Sys:Prefs/

1.9 Tooltypes

```
    EDIT
    SAVE
    USE
    CREATEICONS=YES|NO
    PUBSCREEN=<Pubscreenname>
```

1.10 Shell Arguments

```
    FROM,EDIT/S,USE/S,SAVE/S,PUBSCREEN/K
```
