

This template is for programmers in word for windows, it contains all tools, and an adjusted button-bar, as the standard MCS library, which you should also have in Normal.dot in your winword directory.

The extra buttons above are :

- M - Macro Manager from MicroSoft to copy macro's between templates
- μ § - Generates an MsgBox statement in Your program.
- μ § - Plays some music - just amusement (or not ?)
- μ § - Prints your macro on the (postscript ?) printer
